

## To create a kitting work order with non-trackable items

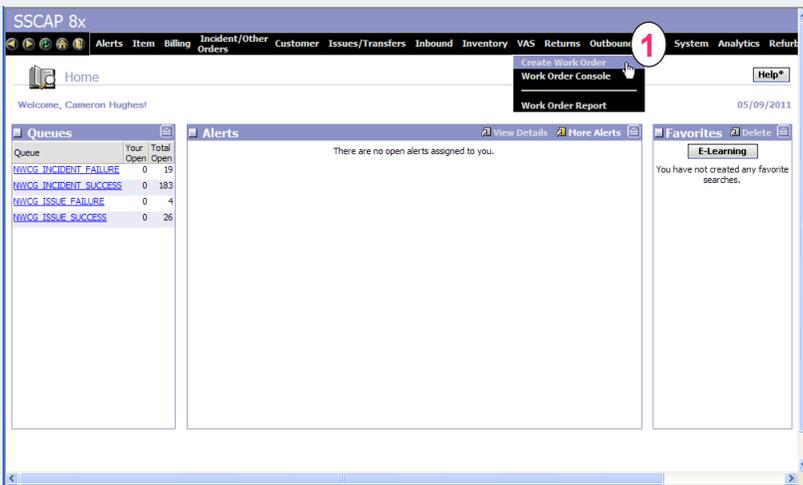

- 1 On the VAS menu, click **Create Work Order**.
- 2 On the **Create Work Order** screen, click the **Service Item Group** drop-down arrow, and then click to select **Kitting**.
- 3 Click the **Purpose** drop-down arrow, and then click to select **Stock**.

*Service Item ID is a required field, and will default to **KITTING**.*

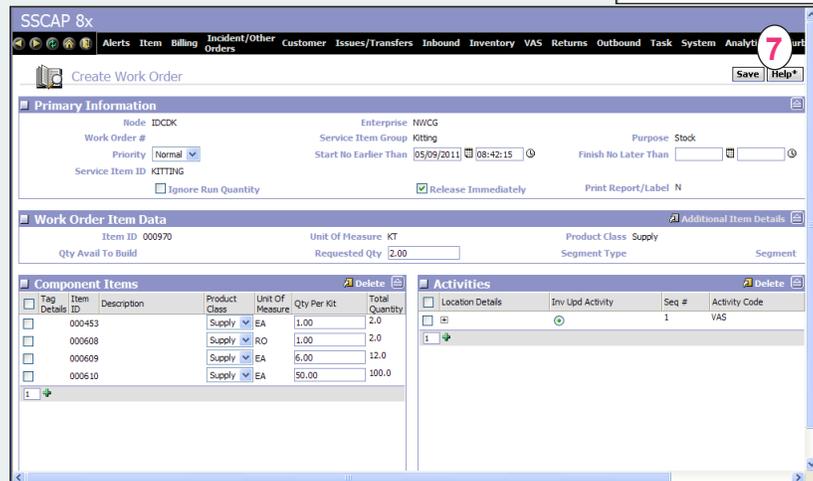

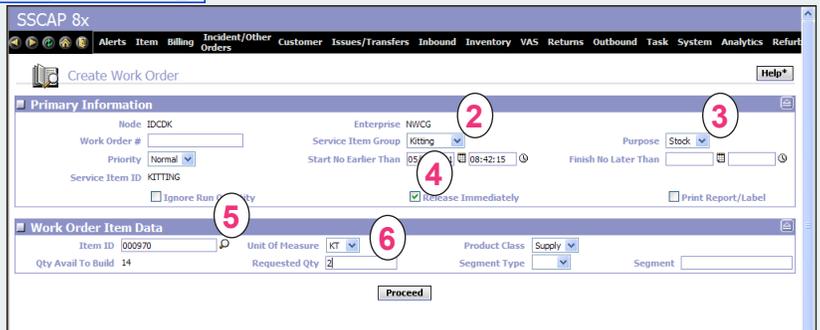

- 4 Click to select the **Release Immediately** check box.

- 5 Under **Work Order Item Data** in the **Item ID** text box, search for or type the **Item ID** of your choice.
- 6 In the **Requested Quantity** text box, type the **number of kits to be built**, and then click **Proceed**
- 7 On the **Create Work Order** screen, click **Save**

*At this point, move tasks to move the items from storage to VAS are released to the scan guns.*

## To complete and confirm the work order for a non-trackable kit

As a rule, this task is usually completed using the scan gun. Limit your use of the console for move tasks!

- 1 On the **Work Order Details** screen, click **View Tasks**
- 2 On the **Task List** dialog box, click to select the top **Task ID** check box, and then click **View Details** or click the **BatchNo** link to complete all move tasks at once.

A *BatchNo* link may not be available for all kits. This task explains how to complete move tasks for individual kit components.

- 3 For each task, click **Complete** and then click **Save**

*continued on next page*

## To complete and confirm the work order for a non-trackable kit- *continued*

- When all tasks are completed, click **Close** on the **Task Detail** screen, and then click **Close** on the **Task List** screen.
- On the **Work Order Details** screen, click **Confirm**

*The VAS Station screen displays after the JAVA coffee cup displays.*

- On the **VAS Station** screen, click the **Location** drop-down arrow, and then click to select **V1-000001**.
- In the **Qty to Process** text box, type the **number of kit(s) to process**, and then click **Save**

*A packing list and kit SKU label will automatically print for the number of kits built.*

**Kits are now ready to be moved to storage!**
